The image shows a screenshot of a Windows desktop with a Google Chrome browser window open to the Google Play Store page for the app 'Root Checker Pro'. The browser's address bar shows 'play.google.com/store/apps/details'. The Play Store interface includes a left-hand navigation menu with options like 'My apps', 'Shop', 'Games', 'Family', 'Editors' Choice', 'Account', 'My Play activity', 'My wishlist', 'Redeem', 'Buy gift card', and 'Parent guide'. The main content area features the app's logo (a green 'R' with a '#') and an 'Install' button. Below the logo are three smartphone screens demonstrating the app's interface: 'Verify Root Instantly', 'Verify Buzy Box Instantly', and 'Get Accurate Results'. A yellow circle highlights a button on the second screen. At the bottom of the Play Store page, there is a text description: 'The Root Checker App let's you check and verify the Root Access and Buzy Box on your Android Device. It will not root your device by any means, and only provides you with the information whether or not the device is rooted. You can also check about the BusyBox status on the device, i.e. is'. A large YouTube video overlay is positioned at the bottom of the browser window, with the title 'How to Root Samsung Wave Y (GT-S5380D)' and the 'Root My Android' logo.
